One-o-Ones and
Connections

CURRICULUM VITAE

- Tailor the resume to the job.
- Chronological format.
- Have key words (job description).
- Use data, metrics, results and numbers.
- Include relevant information.
- Make it short and strategic.
- Include skills, education and more.
- Use bullet points.
- Avoid typos.
- Use Tools and Tech (Resume.IO, Chat GPT and others).

LINKEDIN

- Use a high-quality profile picture.
- Less information and key words.
- Craft a compelling headline.
- Build a strong network.
- Share valuable content.
- Participate in relevant groups.
- Engage with others.
- Seek endorsements and recommendations for your skills.
- Personalize connection requests.

INTERVIEW

PLAN

- Know enough about the company.
- Understand the position and job description.
- Research interviewers and team members.
- Prepare specific examples and to answer behavioral questions.
- Show interest and engagement.
- Review your resume and application.
- Train, practice introspection and prepare questions.
- Prepare questions to ask and plan the logistics ahead.

TELL

- Share your story in a chronologic order.
- Highlight your skills, qualifications and experiences.
- Speak clearly and articulate your thoughts effectively.
- Dress appropriately to the company and position.
- Be authentic, enthusiastic and display positive body language.

ASK

- Ask about the company culture.
- Ask about the role challenges and context.
- Ask for information about the team.
- Ask about next steps.
- Tailor your questions.

DIGITAL INTERVIEWS AND BUSINESS CASES

DIGITAL INTERVIEWS

- Test your technology and familiarize with the platform
- Prepare for potential connectivity issues
- Set up a suitable environment and minimize distractions
- Try to maintain eye contact and be mindful of your non-verbal communication
- Practice active listening.

BUSINESS CASES

- Clearly understand the purpose of the business case.
- Conduct comprehensive research to gather relevant data and information.
- Use tools to apply critical thinking and analytical skills.
- Based on your analysis, provide appropriate solution or recommendation.
- Develop a compelling presentation, practice and refine your presentation.
- Be prepared for discussion and decision-making

AFTER THE INTERVIEW

FOLLOW UP

- During the interview understand the next steps and timeline.
- Send a personalized thank-you email in the same day after interview.
- If you don't receive a response within the timeline mentioned ask for information.
- Avoid excessive follow-ups.

LEARN FROM EVERY PROCESS

- Reach out to the recruiter or hiring manager and politely ask for feedback.
- Take time to evaluate your performance during the recruitment process.
- Review your resume and any other application materials you submitted.
- Keep upskilling, improving and practicing interview skills
- Stay persistent and motivated.

KEY LESSONS FOR A PROMISING FUTURE

**Embrace feedback and
continuous improvement**

**Compounding knowledge
and learning mindset**

**Experiment and explore
different paths**

**Leverage new skills: sales,
organization and more**

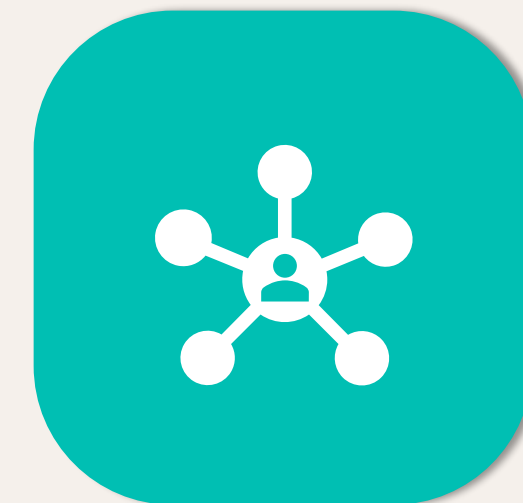

**Pursue happiness and
wellbeing**

**Build resilience and maintain
a positive mindset**

**Have clear goals and review
your progress constantly**

**Connect and start
networking**
